

Swiss MG V8 enthusiasts head off for Portugal for the MG V8 & EEOY 2017 events

Victor Rodrigues says “the English lorry drivers were very kind and professional” clearly taking great care loading and securing the Swiss cars in Basle on Tuesday 25th July. The MGs will be delivered on Friday 28th July at the Hotel at Carcavelos in Portugal where the group of MG V8 enthusiasts joining the SWISSMGV8/IG will be staying. Victor left Zurich on a flight to Lisbon on Wednesday to manage preparations for the pre-event. He will be joined by Evelyne who will fly down on Saturday.

Swiss MG V8 enthusiasts off for Portugal

On Tuesday 25th July Swiss MG V8 enthusiasts watch as their 12 MG V8s are loaded on a pair of car transporters in Basle for the long journey to Portugal. The Swiss members chose to have their cars transported there and will fly down to collect their cars and then join the **preliminary SWISSMGV8/IG event** followed by the Club’s **European Event of the Year 2017** being arranged this year by the local MG club in Portugal.

Victor Rodrigues, the enthusiast that formed and runs the popular SWISSMGV8/IG in Switzerland, inspects his RV8 as it’s loaded and tied down in the transporter.

Fellow members queue with their MG V8s ready to load on the transporter.

The MG V8s had the luxury of a covered transporter for both security and to avoid road grime and flying stones.
