

## V8 Spares for Sale – MGBGTV8 engine

**Vitesse engine 9.35 cr** has done well under 20,000 miles from new. It has a Holley 390 carburettor with end mounted floats and adjustable jet blocks, manual choke, Offenhauser manifold all match ported. Engine comes ready to drop into an MGBV8 complete with engine mounts, clutch, flywheel, alternator and starter. Engine was painted gloss black but that's started to peel. There is a Moroso low rider air cleaner but poor US chrome needs replating. All stainless bolts with turned heads. Ideal for anyone building a MGBV8. **Price £3,000** collected from Melton Mowbray.
