

Clear message from the Harriers on the final flypast over 10 Downing Street!

Photo sent in by Ron Gammons who says although it's "probably not suitable for publication, this is the final flypast of the RAF Harriers over No 10 Downing Street before they headed for the knacker's yard" as part of the Government's recent spending cuts. "You may have to tilt your head a bit or even screw your eyes up to read the message!" The message is clear!
