

V8 Spares for Sale - Speedometer and Rev Counter for sale

Speedometer and Rev Counter for sale

These are 80mm gauges removed from my 1980 BGT V8 conversion. The speedometer is recently reconditioned and calibrated by Speedoheads for a 3.07 axle and 185/65/R15 tyres. The Rev Counter has been altered to suit V8 engines. Both instruments have had additional light holders fitted to improve night illumination. The speedometer drive cable is specially made to suit the Tremec T5 gearbox Ford pattern drive at the gearbox end. Also included is a speedometer drive kit to fit world class Tremec T5 gearboxes. **£200 plus postage.** Contact: Ian Woods. **01329 661680** or for more details and images email to fathom@ianwoods.plus.com
