

Damask 1494 for sale

Private sale – Factory MGBGTV8 for restoration

Damask Red 1494 registered 1st October 1973 for restoration, originally bought to convert into a BCV8 race car but the engine and gearbox are unsuitable for racing. Front wings (in good condition) have been removed and the inner wings require patch repairs, floors, footwell side panels and the oil cooler tray will require replacing. All panels (invoice for £550) required to complete the repairs are included, the sills are probably OK for road use but these were purchased for the racing conversion. **Offers around £2,500** (6.4.09)
Contact Brian Smethurst on 07836 613281.
