

Private sale – exceptional Factory MGBGTV8 in Tundra

Private sale – Factory MGBGTV8 in Tundra

Tundra 1272 (74N) with only 92,837 miles and the bodywork and interior in exceptional condition, this one owner car has been garaged for the last 10 years as the original owner's widow did not want to see the car go. It has just had a thorough service with new 6v batteries, clutch slave cylinder, fuel pump, brake pads, cooling fan motors and other parts together with a new MOT. The Dunlop composite wheels are in good condition with two new front tyres. Offers around **£10,500**. (19.2.10)

Contact: Kate Latre on **07954 086344** or **01202 760462**. Location: Dorset.

Private sale – exceptional Factory MGBGTV8 in Tundra

Kate Latre says “This chrome bumper car has been garaged for 10 years. It was originally owned by my Uncle who travelled from Wales every year to the MG car show in Jersey and showed the car in the arena. When my Uncle passed away my Aunt did not want to sell the car and so it was garaged for 10 years. Sadly my Aunt has now passed away and has bequeathed the car to me. The car has now had a service and MOT. During that thorough service the car has had fitted the following items – two 6volt batteries, clutch slave cylinder, spark plugs, rotor arm, set of contact points, a condenser, brake light switch, oil filter, fuel pump, light switch, hazard switch, brake pads, two front tyres and two cooling fan motors.

The body work and interior of the car is in exceptional condition and in the original format. The car was manufactured in 1974 and has an 'N' registration plate. The mileage is 92,837. The car is garaged in Dorset and available to be seen there.”
