Published by
The MG Car Club Ltd

The MG Car Club Trade Membership Scheme

was introduced to ensure that Club members gain access to the very best services on offer. The MG Car Club does not deal in spares or services and relies on a number of companies to provide members with what they need - whatever it is - wherever they live.

The companies listed in this directory have all agreed to support and promote The MG Car Club in addition to providing a high quality service. The MG Car Club vet and review these companies prior to their inclusion to ensure that they meet the criteria for listing in the directory. Things change, companies can be affected by trading conditions and changes in management and staff. Therefore, feedback from our members is encouraged, both good and bad.

Should a member not be satisfied with the service they have received, and after taking it up with the company concerned they still remain dissatisfied, a representative from Kimber House will investigate their complaint in an endeavour that a suitable agreement is reached.

Disclaimer: *Any contract that is entered into with any of the companies listed herein by one of our members (or others) is a contract between those parties, and the MG Car Club cannot and will not be held responsible, either legally or financially, for any failure on the part of either party.*

ALPHABETICAL LISTING OF TRADE MEMBERS 2007

WORKSHOP MANUALS AVAILABLE FROM THE MG CAR CLUB

MGF Workshop Manual. Published by Brooklands Books under License from MG Rover.

The manual covers all models from 1995 to the end of production.

The manual includes a wealth of detailed cutaway drawings showing assemblies

in detail, and includes descriptions of how to dismantle components where possible.

If you are a competent DIY mechanic and know your way around a Haynes manual, the MGF Manual will guide you through most tasks you might be called upon to carry out.

Probably the best explanation of how to repair your car, without having to resort to a garage.

£42 including postage UK

£48 including postage Overseas.

Other manuals instock include, Haynes MGA workshop manual, Haynes MGB workshop manual, Haynes MG Midget & AH Sprite workshop manual, Haynes MGB Restoration Manual, Haynes MG Midget & AH Sprite Restoration Manual and How to Powertune the 1275 A Series by Veloce. Please phone for prices, alternatively order securely online at www.mgcc.co.uk

If you own a Z range saloon and a reasonable tool kit, you are guaranteed to save yourself the cost of the labour to service and maintain your car. There's even a section showing you what the MOT inspector will check, so that you can get in there first to fix anything to avoid a Fail.

As comprehensive as the rest of the manual's Haynes produce, these all have the pictures and exploded diagrams you'll need to complete even the most simplest jobs including changing the battery in the locking remote to the most complicated of jobs. It also tells you how to survive without the need for some of the specialist tools that are used by the garages.

ZR Manual (Haynes 4145) is priced at £24.00 Posted UK, and £28.00 Posted Overseas.

ZT Manual (Haynes 4292) is priced at £24.50 Posted UK, and £28.50 Posted Overseas

ZS Manual (Haynes 4384) is priced at £24.00 Posted UK, and £28.00 Posted Overseas
