

Private sale - Factory MGBGTV8 in poor condition

Private sale - Factory MGBGTV8 in poor condition

Damask 0400 (73 M) car is in a very poor condition sadly but Roger Boys has seen it and believes it is rebuildable providing the buyer has plenty of money and time. The bodywork is a complete basketcase, it was possible to put a hand through some of the panels. However there are many parts that would be reusable in the right hands, not least by an enthusiast building a V8 Roadster. Offers. (6.10.09)
