

V8 Spares for Sale

For Sale – RV8 “Straight through” exhaust pipes

These exhaust pipes enable you to remove the catalytic converters and replace them with straight through pipes which gives increased BHP and a “TVR” type exhaust noise. They were fitted to my RV8 at Clive Wheatley by the previous owner just over 12 months ago and are therefore still in excellent condition. They are a straight forward bolt in, including the lambda probes. However be warned they are LOUD! I found them too loud. Offered at half the new price £85 plus postage £15. Please contact Roger Aldridge on **01905 820497** or email at rogerandjulia88@tiscali.co.uk
