

Looking back to the 1970s – UNIPART Wax Shampoo

Victor Rodrigues has been in touch with a contribution to the “**Looking back**” series launched ahead of the MGBGTV8 45th Anniversary and the V8 Register’s 40th Anniversary both in 2018. His three photos of tin of **Unipart Wax Shampoo** – enough for 12 washes.

Victor says “in my MGV8 bits and collectables I still have this unused aftermarket car-polishing wax dispenser which was offered by UNIPART, the car and spares supplier as part of the British Leyland group by the end of the 1970s. Despite the daring labelling showing a female involved in car polishing works on an MGBGTV8, it was used for the advertise the product!”
