

## V8 North Lakes Tour 2024

Visit to Ravenglass and Eskdale railway

On the Ravenglass and Eskdale railway

Looking back from the Hardknott Pass

But the group arrived and parked up in time to catch the train to Ravenglass!

Tour group met a blockage on the downside of Hardknott Pass – an overturned van - so had to re-route to railway station

Walter and Brigitte Kallenberg and Richard Withington were there with their MGBGT V8s along with fellow tour members with a Midget and several MGs.
