

Private sale – Factory MGBGT V8 in Glacier White

Private sale – Factory MGBGT V8 in Glacier White

Genuine 1973 Factory MGBGT V8 finished in Glacier White with a black interior. Chassis number GD2D1 672G. The history backs it up: a continuous file of paperwork going back to at least 1981. Mechanically it's in good order, the engine was fully refurbished in 2019 and has only covered a few thousand miles since (95,880 on the clock). It sits and drives well, and ticks over nicely with no overheating. Running gear is sorted and ready to use. New carpets supplied too. The bodywork needs attention as there are signs of paint cracking and other issues. This is not a concours car and isn't being sold as one. You're buying is a sound, well documented, mechanically healthy V8 that runs and drives as it should, ready for someone to give the body the attention it deserves. Get that done and you'll have a genuinely desirable example.

Priced at **£12,350** to reflect the work needed.
