

V8 Website activity

Our aims for the V8 Website

We aim to have an active website which is interesting, lively and topical with a good flow of new items which provide useful technical information, interesting news items and information on events which V8 Register members will see as a valuable part of their MG Car Club membership benefits. We run the website on an "open to all" basis so potential new members can see the range and quality of the information and support we offer which we hope will encourage them to join the Club and V8 Register.

Flow of new items uploaded to the V8 Website
