

An MGRV8 - from Show Car to Race Car

Car started life as the original RV8 launch car at the Frankfurt Motor Show in 1993. Later in 1995 the car came out of storage and was stripped of all its parts. Then a new bodyshell was shipped to Germany and using the original parts the car was built as a display feature at the Essen Classic Car Show in 1996. Later it was bought at auction by Clive Wheatley.
