

Review of RV8 auction results in 2014-2015

Chart plots the auction results reported in our PriceWatch series of reports against our Price Guide figures for Condition 1 & 2 RV8s from 2010 to August 2015. The prices from our price guides are for UK spec cars although in the case of RV8s in Woodcote Green very few are UK spec so the Japan spec cars dominate the market in that colour. However the UK – Japan spec factor does have a bearing on the prices for “Other colours”.
