**Private sale – Factory chrome bumper MGBGT V8 in Damask Red**

**Damask 0446** (August 1973) with 91,500 miles, GD2D1446G and matching numbers. Car off the road since May 1995 with lots of history of past ownership, was bought as a restoration project 4 years ago. Restored over a 3 year period by Willow Triumph and over £30,000 spent. All major parts rebuilt, restored or renewed, fully documented restoration. Large list of new parts, stainless steel exhaust, new Minilites and tyres, but the original Dunlop composite V8 wheels come with the car (in okay condition but need some restoration). Less than 500 miles since restoration finished. Engine not even run in – I am just not finding the time to drive the car and it needs to be driven No sunroof or stereo. **£22,000**

Location: Highbury, North London
