

Clive Wheatley exhaust modification for an RV8 with a specially moulded valance

Peter Cutting says “this is a Clive Wheatley exhaust modification with a specially moulded valance. I have one on one of my RV8s and it is a real delight. Despite all the investment, Clive only sold four of these modifications. He has one and I have one, and there are two at large. I’d love to know where the other two modifications are as Clive doesn’t know and it would actually form quite an exclusive club -- “the RV8 Twin Exhaust Club”! Can you help?”
