

Gaiters to cover cracked RV8 seatbelt belt stalk covers

on both the driver's and passenger's side. He has not found a source for replacement plastic covers but feels the gaiters are probably cheaper than replacement covers.

They are very easy to fit as they have a Velcro strip in the back for easy fitting.

Gaiters to cover cracked RV8 seatbelt belt stalk covers

Mike Lane found his seat belt stalk covers had cracked so he bound the covers with heavy duty tape. As the cover does not appear to be a safety related part of the seat belt fixing mechanism, he decided to cover them with a gaiter. He obtained a pair of gaiters to cover the taped seat belt stalk covers and as they were in matching RV8 leather he feels they look good. The gaiter can be seen at: http://www.ebay.co.uk/itm/351009181831?ssPageName=STRK:MEW NX:IT&_trksid=p3984.m1497.l2649

The gaiters are available from Top Gaiters in the UK at £18.99 the pair including VAT and P+P. Mike is very pleased with the result which hide the broken covers
