

I have a really great registration number that might be of particular interest to someone in the V8 Register. It is **GO A 3.5L**. It is currently on an old Land Rover which has both an MOT and is taxed so is ready to transfer. I was going to put it on my Dad's V8 which I still have and which still has only 41,000 miles on it but that already has quite a nice number HFF 416 and I quite like keeping it like he had it. So if anyone wants to offer me a bargain **£500 plus** the transfer fee the number is theirs – it would be nice to see it on a V8. It could be transferred to any Factory MGBGT V8 but not conversions based on pre-1972 cars. Contact: Steve Whistlecroft by email at steve@whistlecrofts.co.uk or on **01252 792450** or **07880 601116**
