

## Carcoon for sale

### Evolution Carcoon size 4 with Active Airflow complete with full battery management for the stored vehicle

I have a Carcoon for sale and thought I would offer it to fellow V8 members before advertising it on eBay or with the various clubs. It is size 4 suitable to fit up to a Jaguar Mk2 size. It has the Active Airflow with full battery management for the stored vehicle. The two fans had replacement filters last year. It was purchased new in 2002. The new price including VAT is £378. **Offered at £195.**
