One of the most successful features in the MG Car Club's monthly magazine *Safety Fast!* over the last few years has been the "So you want to buy an MG?" series of buyers' guides. Those guides have been both comprehensive and authoritative as they have been well researched and prepared by Club members who clearly know their individual models very well. This book contains the guides to the MGBGTV8 and the MG RV8 models together with a five part guide to buying a classic MG and useful checklists and other materials.
