

Another RV8 arrives in Switzerland – Oxford Blue 0467

Victor Rodrigues (V8 Register in Switzerland), reports an RV8 (Oxford Blue 0467) has been registered in Switzerland. The car was imported from Japan and previously owned by Jos van Opstal in Breda in Holland. The most interesting feature is that the car was very professionally converted to LHD by the Dutch V8

enthusiast, Bas Gerrits. Recently this RV8 has gone to Switzerland where it now belongs to a very enthusiastic Swiss lady. The RV8 is a very clean, early and special car, showing 28,800 kms on the mileage indicator. (10.2.10 and updated 24.2.10)
