

Private sale – exceptional Japanese spec RV8 in Woodcote Green

Woodcote Green 1522 (1995) with valuable 'MGR' registration and finished in Woodcote Green paint and to Japan specification, this car has been in my ownership since it was repatriated, via Classics & Sports Car Consultants, in December 2004. This beautiful example did less than 3,000 miles in Japan and is still under 17,000 miles; kept in a heated garage and only used during the Summer season, mostly as a 'Sunday Special'. I have carefully maintained this car myself and it has therefore been serviced every Winter and kept in 'as new' mechanical condition. As well as replacement parts when required (very few actually but including rear brake cylinders and shoes and a recent new coolant expansion tank) this car also has the benefit of several worthwhile improvements: Koni 'yellow' Sports shock absorbers, 'Optimax' ECU chip, high spec HT leads, genuine new UK spec MPH speedometer (the original KPH instrument is included to maintain the mileage continuity), Clive Wheatley GRP radiator shroud, Clive Wheatley custom 'Draught Stopper', wrapped exhaust manifolds and some stainless steel fastenings under the bonnet.

Everything works as it should (including the A/C); there has never been any damage repair and the bodywork, paint, chrome, hood, interior leather, wood veneers (with particularly nice figuring), carpet, trim and underbonnet items are all virtually 'as new' and immaculate, even the underside is spotless! There is no evidence of any corrosion in the windscreen frame, on or in the fuel tank or, in fact, anywhere on this car. The road wheels are in very good original condition and fitted with replacement Dunlop Sport tyres; the spare wheel is in unused perfect condition with the original Michelin Pilot tyre.

Included in the sale are the desirable tool roll (with a full compliment of tools), original Japanese documents and the owner's handbooks (Japanese and UK) in the 'as supplied' MG-embossed leather document folder, all correct jacking and wheel removal tools, the original hood cover (with support rails), custom 'RV8' overmats, a black leather gear knob (plus the original item), Panasonic CD/Radio (plus original Japanese spec unit) and two sets of keys and two alarm fobs.

This car wants for nothing and with an MOT to April 2012 and Road Tax to February 2012 it is immediately available for use by a new owner/custodian. Now reluctantly for sale after 6 very enjoyable years of ownership, I am asking for **£14,500 ono**. 220611
