

MGLive! 2009 – photos from Gavin Bailey

V8 parking area and marquee

V8 parking area was packed with MG RV8s, many in the relatively rare Nightfire Red, and Peter Kuruber's RV8 in Old English White. The dyno sessions put on by Novatech were very popular. The "Team Cowley MG" racing RV8 Flame Red 0326 was a feature.

RV8 on display in the Club's main marquee

Ray Ellis is on duty at the V8 Register table behind the car.

The display of MGs was an innovation devised and set up by V8 enthusiast Dennis Wharf and his fellow Midget Register colleague David Storer. It was an imaginative idea and they spent much hard work in preparing and assembling the display of MGs.

The immaculate RV8 in Nightfire Red had been loaned for the display by Peter Jung.

The layout of the display of MGs was spacious and provided an attractive cross section of MG models and a pleasant gathering place for Club members and guests.
