

Lucas spot and fog lamps fitted to MGBGTV8s in the 1970s

Peter Beadle recalls the **Fog & Spot lamps fitted to MGBGTV8s by University Motors** back in the mid-1970s would have been the Black & Chrome rimmed underslung Lucas Square 8s. These lamp assemblies were sold complete with wiring and switch by Lucas and Unipart with the Fog (P/N GAL 158) and Spot (P/N GAL159). They still seem to be available from **JR Wadhams** the Rover 2000 P6 specialists in Stourbridge in the West Midlands. A pair of spot and fog lamps with covers was also seen on offer recently from an eBay trader, **classicvintage-2018** in Tockwith, North Yorkshire.
