18.	MGC's and V8's downunder	Steve Foldhazy
	Delco Remy alternator note	Steve Foldhazy
19.	Members write	
20.	Tail ends	

A neat A5 sized book packed with useful maintenance tips for the MGBGT V8 model. On the cover is Chris Dodds, an early member of the V8 Register in Australia. Tragically he died far too early in life but the V8 Register maintains his memory with an annual award.

It was the third publication following the formation of the V8 Register in October 1978 and the first V8 AGM held in May 1979 on the Sunday of the Club's annual meeting at Silverstone. At that time the first volume of the V8 Workshop Notes was well underway and was soon published as the "First Fifty". It was well received and the series has gone on successfully and has now reached Note 607 in Volume 16. Distribution now is on a V8 logo'd Twister memory stick as a neat and convenient store of a great deal of information for MGBGT V8 enthusiasts.
