SERVICE WE STAND BY

Regular servicing maintenance and repairs as and when necessary carried out by Operators competent in dealing with British Leyland cars is the best protection for the safety and reliability of your British Leyland car.

As franchise holders for a British Leyland marque/s, we have the staff and the equipment to provide proficient maintenance and repairs at reasonable costs. We also have the support of the manufacturers, not only in being kept up to date on technical requirements, but in the supply of parts and material required in carrying out any service job. We also supply the British Leyland range of Unipart "All Makes" parts and accessories, together with any other British Leyland supplied parts.

Most important of all however, is our confidence in the quality of any work we undertake on your car. All work is subject to quality controls operated by our supervision and our confidence is such that we give you an additional safeguard — the workmanship for all servicing and repair work we carry out is backed by us for a period of 1 month or, 1,000 miles whichever first occurs. Should any faults with our workmanship be established within this period they will be rectified at no extra charge to you to the extent of the respective invoice. Work not detailed on the invoice and any consequential loss or damage to the owner or third parties is specifically excluded.

We place great importance on quality from Senior Management downwards throughout our business as a whole — do not hesitate to insist on seeing a Senior Management representative if you are dissatisfied in any way.
