From a helpful call from an RV8 member who was pleased with the recent RV8 documents webpage, he mentioned that on receiving his Heritage Certificate last year he had noticed that against the line on the certificate "8. Date of Despatch" there was the entry "Not Recorded". Puzzled by this he explained he had called the BMI Heritage Trust at Gaydon and fortunately was able to speak with the archivist who said that in the RV8 build records they have the date of despatch as not recorded. So their certificate is produced including the section for the date of despatch but the entry against it is the "Not Recorded" entry. I am most grateful to the member for getting in touch and clarifying this point.
