Private sale – MGBGTV8 4.6 litre in Old English White

Private sale – MGBGTV8 4.6 litre in Old English White

MGBGTV8 (Old English White 2611) - a stunning 1975 manufactured & 1976 registered original Factory built MGBGTV8, with Heritage certificate, in superb condition and with only 4,550 miles covered since a complete body off and nut & bolt rebuild incorporating a large quantity of new parts and numerous mechanical and running gear performance upgrades. The original instruments were re-fitted and the odometer reads 98,500 miles. Advisory-free MOT until April 2026. The previous owner commissioned MG specialist Cuerden Classics to carry out a body off & nut and bolt rebuild which was carried out between 2016 and 2017. There are receipts for all the work carried out and parts supplied & fitted. There is a photographic record on a CD which shows the entire strip down and build process from start to finish.

I have owned the car since April 2023 and have only used it in dry weather, storing it in a humidity controlled garage when not in use. Serviced and MOT'd annually in my ownership by Race Ltd with all invoices available. Gearbox oil, diff oil, brake/clutch fluid and coolant changed in November 2023. The car is of show quality and in outstanding condition all round - body, underside, interior and mechanically. The body colour and slightly lowered suspension settings suit it perfectly and the twin exhausts really do enhance the V8 burble. It always get lots of positive comments and admiring looks whether at shows or on the road. Having immensely enjoyed owning and driving this special car for almost 3 years I now plan to change to a different classic car and experience something new. **Price £28,500.00**
