

Handy voltage tester from Retronics

RVTN – Retronics Voltage Tester (for negative earth vehicles)

This is the ultimate easy to use, top quality voltage finder and tester. No awkward switches, dials or poor quality probes! The RVTN works on 6v, 12v & 24v vehicle wiring. nA deliberately simple device, handmade from quality components, the RVTN is built to last! An integral earth clip means one hand is free – no more trying to hold two multi meter probes as well as the wire/item you are testing! Easy to hold, insulated solid brass probe. It has a one metre strong silicon covered cable – super flexible & flame retardant! LED bulb & reliable, lasting quality earth clip. A quick, easy & safe way to find a live wire! With a 5 year guarantee you can purchase your RVTN for only £12.99 with free UK postage. [More](#)
