**Why has the Club moved to a digital copy of issues of Safety Fast!?**

The huge increases in the delivery costs of the magazine, together with higher production, packaging and printing costs, have been a serious and growing financial burden for the Club. So a change to a digital magazine has enabled the Club to control costs and offer the benefit of a reduced membership subscription for members willing to make the change to receiving a digital copy rather than a printed copy. The added benefit is a prompter delivery of Safety Fast! to members. The option of Club membership with a printed copy will remain for now as the tactile pleasure of a printed magazine is recognised as something some members will prefer.

**Digital Club Membership is also available to V8 Register members in Europe and Overseas.**
