1973 MGBGT V8 Workshop Manual Supplement AKD8468

A document released in 1973 by the Service and KD Division at Cowley. As it a relatively large document which had some "Issue 2" pages released to replace original "Issue 1" pages, a copy of this document is not included in the "manuals" folder in the sets of workshop notes we supply to Members. Note: some "Issue 1" pages were replaced with "Issue 2" pages in this manual including pages covering the cylinder heads. Copies of this manual are available from MG specialists like Brown & Gammons.
