**Highlight events for 2019**

The programme for 2019 begins with the traditional V8 Curry in Knowle on Saturday evening 9<sup>th</sup> February not far from Stoneleigh where the annual MG Show will be held the following day. A V8 Technical Day, with a variety of presentations on topical technical issues, will be held at a study centre near Watlington just west of the M40 in early June. In the week running up to MGLive! several events are planned. The next V8 Tour organised by Richard Withington will be based in Lincolnshire over the long weekend Thursday 12<sup>th</sup> to Monday 16<sup>th</sup> September and later that month a rolling road session will be held at Aldon

Automotive in the West Midlands organised by Steve Newton. Full details of all the events are on the online Rolling V8 Calendar – see our “More” webpage for a handy link.

**Workshop notes reach 1,000**

Our two successful workshop notes series, with servicing and spares articles contributed by fellow members, reached a total of 1,000 notes in November – an extraordinary milestone. That was an average of one new note released every 15 days over the 40 years since the formation of the V8 Register 40 years ago providing useful information and support for V8 enthusiasts. Links to the two series are on our

“More” webpage.

**Updated MG V8 Price Guide**

An active market over the six months to November 2018 and a recovery of Condition 1 MGBGT V8 chrome bumper prices to close to the peak in prices seen in May 2017 were features in our updated six monthly Price Guide released in November. A less active RV8

market also showed a similar price recovery to near the peak seen in November 2017.

Reports note an emerging demand for RV8s from buyers in the USA as the model reaches 25 years old and the end of import restrictions. Both market and price reviews are available on our “More” webpage.
