V8 40th Anniversary 2018

There is a programme of anniversary events in the week running up to MGLive! The events include a visit to the Birmingham Symphony Hall on Wednesday 30th May when two organists in the V8 Register will contribute to this event. Further details of the access and parking arrangements will be available in a briefing webpage for the event on the "More" webpage. On Thursday 31st May there will be a visit to the house and gardens at Packwood House south of Birmingham. On Friday 1st June there will be a guided tour of the seven storey brewery at Hook Norton followed by lunch at the brewery cafe. In the evening we have a V8 Dinner at the Star Inn

in Sulgrave near Silverstone.

The V8 Technical Day will be on Saturday 14th July at Club Office. This year the V8 Tour will be in Derbyshire from Sunday 2nd to Thursday 6th September. On Saturday 8th September we have a meeting at Aldon in the West Midlands with rolling road sessions including a fuelling setup check, timing adjustment check and at least two power plots. Members will need to book a session and spectators will be very welcome.

Full details and booking arrangements for all these V8 Anniversary events are available on our "More" webpage.

MOT exemption from May

The MOT exemption changes

will become available from 20th May 2018. We have clear information for MG V8 enthusiasts on the MOT exemption available for a car manufactured or registered for the first time at least 40 years previously, of a type no longer in production, has been historically preserved or maintained in its original state and has not undergone substantial changes in the technical characteristics of its main components in the last 30 years. To discuss any matter relating to the DfT Substantial Change Guidance or VHI eligibility or the MOT exemption procedure, see our contact on the "More" webpage.

Data protection changes

For the new GDPR data protection regulations in May 2018 we have briefing note on the purpose and use of the data the V8 Register collects and

Chris Dodds, a strong V8 Register supporter in Australia who sadly died so young.

holds. See our "More" webpage: www.v8register.net/more.htm. Contact the V8 Registrar to update your data, make enquiries as to the data held on the V8 Database, have access to your data and make any corrections, or give notice if you wish to have your data erased.
