## Satnav air vent grille mount

A convenient way of mounting a satnav away from the windscreen in an MG V8 or a daily driver car is one of Garmin's air vent grille mounts. They are available online from Currys-PC World at only £12 including VAT.

## Satnav choice to beat the traffic congestion

Which? magazine recently highlighted a budget satnav which has useful live traffic features which can help you get round traffic congestion. Their budget

choice was the **Garmin Drive 51LMT-S** with a 5 inch TFT LCD touchscreen, preloaded maps for UK, ROI and Europe, speed camera alerts, free lifetime map updates and free lifetime traffic updates to help you plan your route. For traffic updates you have to pair the satnav with your smartphone to receive live traffic updates helping you

plan or re-route your journey. Typically priced at around only £99. See more on satnavs on our "More" page at: [www.v8register.net/more.htm](http://www.v8register.net/more.htm)

## North Coast 500

Richard Watton enjoyed the North Coast 500 route in his V8 a couple of years ago, stopping at John O'Groats.
