Private sale – restored Factory chrome bumper MGBGTV8 in Brooklands Green – **SOLD in 9 days**

Private sale – Factory MGBGTV8 in Brooklands Green – **SOLD in 9 days**

**Brooklands Green 0207** is a Condition 2 Factory MGBGTV8, professionally restored in 1999 by HCR of Horam, Sussex. It is a 1973 chrome-bumper car, registered as "Historic" so no road tax payable. I have owned the car since January 2004, and the onset of arthritis leads to a reluctant decision to sell. It has the benefit of a Weather shield full fabric sunroof in matching green, refurbished in 2008. The car has a number of extras:

**Performance improvements:** Weber carburettor with K & N air filter; Lumenition electronic ignition (replaced 2015); tubular exhaust manifolds and stainless steel exhaust system; coil-over front suspension and anti-tramp bars at rear; Minilite style wheels; twin 12 volt batteries; low brake-fluid warning light; "secret" cut-out switch for security. Switch to select cooling fans.

**Interior improvements:** "Classic" seats in magnolia leather, with green piping to match exterior colour plus matching leather rear seat. Thick pile carpets. Instruments have magnolia dials, with green lettering. Mota-Lita wooden steering wheel (original type steering wheel included). Up-rated heater fan. "Smart Screen" electronic wiper delay.

**Maintenance:** rear shock absorbers replaced this year, regular brake fluid changes have been done; rear bumper re-chromed 2013; radiator re-cored and water pump replaced 2011; steering rack reinforcing brackets fitted 2010, king-pins replaced 2013, all in addition to routine regular maintenance. I have a log of all work done during my ownership, and a quantity of spares is included. **£16,500**
